

Kajonkietsuksa School English Programme P2 Cycle 1 Science: Before and After Sentences Rubric

Name: _____

Class: _____

Category				
Writing: Understanding that a simple sentence expresses a single idea, represented grammatically by a single independent clause (e.g. 'A tiger is a mammal. A mammal feeds its young milk')	We wrote sentences about everything that we saw. We wrote the sentences to the best of our abilities.	We wrote sentences about what we saw. We wrote the sentences to the best of our abilities.	We have tried to write sentences but they are not always about what we saw. We could have done better.	We did not write any sentences about what we saw. We could have done much better.
Viewing: Interpreting new terminology drawing on prior knowledge, analogies and connections with known words.	We have used all of the new words that we learned about.	We have used most of the new words that we learned about.	We have used some of the new words that we learned about.	We used none of the words that we learned about OR We did not use the new words correctly.
